

QUEST ROUTER PRICING

2011

Stepper & Servo System

- All new 2448, 4848 & 4896 Servo for 2011
- Dual Linear Rails X, Y & Z Axis
- Deeper Coolant Recovery Trough built into 1.25" thick oversized table.
- Q3D Controller & LCD Pendant (Stepper)
- 1 HP heavy duty spindle motor with variable pulley combinations for specific applications. (3HP HF Series)
- Heavy Duty Collet Spindle, 33mm Quill
Tooth Belt driven, ER-11, up to 1/4" d x 2" Bottom Loading 30,000 RPM (ER-16 HF Series)
- Z-Axis Optical Material Sensor
- Lubrication Pumping / Chip Collection System
- Heavy Duty Stand with Casters
- 20mm Precision X, Y & Z Axis Ball Screws
- 4" Z Clearance (6" HF Series)
- Cadlink EngraveLab Expert for Q1 Engraving/Machining Software w/Engraving Fonts & Shapes Included
- Heavy Duty Cart with Casters and Levelers
- Super Hi-Performance Rotary Engraver

Reduced Size
LCD Pendant

New & Improved
Q3D Controller

Quest 1212 (Stepper) \$19,000.00

The ideal size for most heavy duty engraving shops. Small enough to fit, but large enough to handle many industrial engraving and machining jobs such as panel work, molds, dies, sst, etc. 12" x 12" engraving area. ER-11 Collet and 4" vertical travel.
Router w/ HD stand, Collant Recovery System, Q3D controller, pendant & EngraveLab Pro included.

Quest 2424 (Stepper) \$28,000.00

The ideal size for most sign and heavy duty engraving shops. Small enough to fit, but large enough to handle industrial engraving and routing jobs such as panel work. 24" x 24" engraving area. ER-11 Collet and 4" vertical travel.
Router w/ HD stand, Collant Recovery System, Q3D controller, pendant & EngraveLab Pro included.

Quest 2448 (Stepper) \$31,000.00

Quest 2448 Pro Servo 4" vertical travel \$40,000.00

For the very high-production shop with needs for engraving and routing. Runs from high performance servo drives and accepts Gcode. 48" x 48" engraving area. ER-11 Collet and 4" or 6" vertical travel.
Router w/ HD stand, Collant Recovery System, Servo Controller, Work Station & EngraveLab Pro included.

Quest 4848 Pro Servo 6" vertical travel \$50,000.00

Quest 4896 Pro Servo 6" vertical travel \$62,000.00

Quest 4896 HF-Pro Servo \$67,000.00

2 HP Spindle Motor, HD Spindle, Rigid Frame, ER-16 Collet and 6" vertical travel.
Actual table sizes are significantly larger to fully support material. No components are downsized for the smaller machine. Even the smaller table has all of the power you need to handle your toughest routing/machining/engraving jobs.

Software EngraveLab for Q1 by CADLink or Type3 Sign by Vision Numeric (Included)
